Attached is the zip files with all analyses done for samples collected using the Geoprobe. The zip file contains both an excel file and a pdf file for all the data analyzed by EPA's Chicago Regional Laboratory.

There isn't a final "spreadsheet". We would have the Zip file of results that we shared with the FOIA requester. I think there are over 20 documents on the file

Can Deb and I get the table or spreadsheet with the data to share with WDNR and Central Sands?
